REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the prior art to obtain a wafer with the properties as instantly claimed. The prior art teaches removing defects by a heat treatment in an oxygen atmosphere and not a reducing atmosphere. There is no teaching or suggestion in the art to use a reducing atmosphere to remove defects at the surface in combination with the nitrogen doping.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
